

**Build stronger connections during
your lunch break.**

Alexander Abell

Co-Founder & Lunch Break Enforcer

Available soon on:

Problem

Each day, “desktop dining” is causing **billions of dollars in lost productivity** because employees are isolating themselves to their desks.

1

More than 60% of employees eat all lunches alone and at their desk

Forbes / NY Times

2

Only 15% of employees worldwide are engaged in their jobs

Gallup

3

Employees have **only 5 coworkers** they consider friends

HR Dive

**“When an employee feels
happy and connected,
they are twice less sick, 6
times less absent, 9 times
more loyal, 31% more
productive and 55% more
creative”**

 **lunchpool**

“I really like the app and think it will help me branch out a little more and perhaps not eat lunch alone all of the time (though I do like quiet time every now and then).”

“I love it! With there being such a separation between buildings I think this is a genius idea to bring everyone together again since not all staff can make the mingles.”
